Pricing **FAQs**

? Is GST included in the displayed price? ^

No. All prices shown are exclusive of GST. GST at 18% is added on top and shown separately on your invoice — as required by Indian GST law.

remove this — in below line

? Is there a free trial for marketing retainers? ^

We don't offer free trials, but we do offer a free 30-minute strategy session where we audit your current digital presence and give you actionable recommendations — no commitment required.

Our Story

HiveRift was built with a simple mission: to make innovative technology accessible to businesses of every size. What started as a passionate team with a shared vision has grown into a trusted digital partner for startups, growing businesses, and established enterprises alike.

Working with clients across Delhi, Mumbai, Bangalore, and beyond, we recognized a common challenge finding a technology partner that truly understands business goals, budgets, and long-term growth. HiveRift was created to bridge that gap by delivering scalable, high-quality digital solutions tailored to each client's unique needs.

Today, HiveRift is a full service digital agency with a team of 50+ professionals, offices in New Delhi, the USA, and Canada, and a growing client base across 10+ countries. From strategy and design to development and digital transformation, we help businesses turn ideas into impactful digital experiences.

Our Story

HiveRift began its journey as **KhatuShyam Technologies** in 2019 — a small but passionate team with a clear vision: make great technology accessible to every business, not just large corporations.

Over the years, as we worked with clients ranging from first-time founders in Delhi to established enterprises in Mumbai and Bangalore, we saw the same pattern — businesses were struggling to find a technology partner who understood their budget, their market, and their growth ambitions.

That gap is exactly what HiveRift was built to fill. Today, operating under the unified identity of **HiveRift | KhatuShyam Technologies**, we are a full-service digital agency with **50+ team members**, offices in New Delhi, USA, and Canada, and a client base spanning 10+ countries.

We're more than a service provider, we're your partner in digital growth partner

Our Mission

To empower businesses across India and the world with innovative technology solutions that drive real growth, improve efficiency, and create lasting competitive advantage — at a price point that makes sense for the Indian market.

Our Vision

To be India's most trusted digital transformation partner — known not just for the quality of our work, but for the long-term success of every client we serve.

Core Values

These aren't just buzzwords—they're the principles that guide every decision we make

Purpose-Driven

We come to work every day focused on your success. Technology is just the means — your growth is the mission.

Better Together

We collaborate closely with every client, treating your team as an extension of ours.

Always Raising the Bar

Good enough is never enough. We review, refine, and improve — on every project, every sprint.

You Come First

Your priorities become our priorities. If something is not working, we fix it — proactively, not reactively.

Thinking Globally, Acting Locally

We bring global delivery standards to the Indian market, with pricing and support that works for Indian businesses.

Future-Focused

We're constantly learning and staying ahead so you always get solutions that are relevant and powerful.
